

# CONGRATULATIONS TO THE GRADUATION CLASS OF 2021

# TRIDENT COLLEGE

ENGAGE ENLIGHTEN EMPOWER

The Trident College class of 2021 has done it again, with exceptional AS and A level results just released. As usual, every student passed every exam, and more than 30% of results were A\*s or As. A third of this group attained a straight run of As and A\*s; simply fantastic news for the College and for our brilliant students. This is an exceptionally strong set of results which keeps Trident College among the top schools in southern Africa.

Students did especially well in Mathematics, Natural Sciences and Business, with more than half the class attaining grades of excellence. We would particularly like to congratulate Mapalo Mulwe and Kyabu Kapijimpanga for securing 3 A\*s in their subjects. Overall, we are hugely proud of all our students on their 100% pass rate again this year.

These results are a testimony to how hard our teachers and pupils have worked to overcome the difficulties caused by the Covid-19 pandemic, and we can't wait to see what our amazing students will do next. Congratulations, class of 2021.
